CHILDREN'S CRISIS RESPONSE TEAM

WHAT THE TEAM DOES

Children's mental health crisis team provides acute support to those experiencing a crisis situation. This is a voluntary service to those children 17 years or younger that are currently located within the six county region (Big Stone County is 20 years or younger). Before a team is activated, a screening is provided to determine an appropriate response. A parent or guardian must accept the service and be physically present with the child in the crisis.

IF A RESPONSE IS NEEDED

If a crisis referral is deemed appropriate, the crisis response team will travel to the child's location to provide face to face intervention & assist the child in crisis.

The children's response team **DOES NOT** provide crisis services in a medical facility.

SERVICES PROVIDED:

- **Mental Health Screening/Assessment**
- **Treatment Plan**
- **Resource Referrals**
- **Community Resource Education**
- **Collaboration Between Multi-Agencies**

To activate the children's crisis team (17 years or younger—except Big Stone County which is 20 years or younger), call
